

To-Do Documentation

About

Designed to hold a list of projects and allow creation and storage of tasks related to those projects. The data is held as a JSON file in local storage, so **your data will be lost if you clear your browser data**.

If there is no data present when the program loads, a series of sample projects and tasks are created.

Projects

The projects area shows a list of all projects currently on the system, with the active folder highlighted in blue. Click on a project name to make it the active folder. You can add, edit or delete projects from within this section, although the **Default** folder can neither be edited or deleted.

The projects are listed alphabetically; the Default project appears at the top of the list since it has a space as the first character, so when adding new projects you should avoid starting the name with a space if you want them to sort correctly.

Each project name is preceded by a number within a circle, indicating the number of incomplete tasks associated with that project.

To-Do Documentation

Add a Project

Project

Click the Plus icon at the end of the project header, then enter the name of the new project on the popup form.

Add a new project

Project Name:

Cancel **Add**

Click on **Add** to add the project; if the name is blank or the project already exists an error message is displayed. Clicking **Cancel** closes the form without any further action.

Edit a Project

5 Car

Click the Edit icon on the relevant project row then enter the new project name on the popup form.

Edit project

Project Name:

Cancel **Edit**

Click on **Edit** to change the project name; if the name is blank or the project already exists an error message is displayed. Clicking **Cancel** closes the form without any further action.

Delete a Project

Click the Bin icon on the relevant project row, then click **Delete** to confirm deletion or **Cancel** to close the form without any further action.

To-Do Documentation

Tasks

The tasks area shows a list of all tasks currently associated with the active project (highlighted in blue). You can add, edit or delete tasks from within this section.

The tasks are listed in ascending start-date order, with completed tasks greyed-out.

Task	Description	Start Date	Due Date	Completed Date	Progress %	Task ID	+
Service	Book service for December	07/11/2025	09/11/2025	30/10/2025	100	1	 
Dash-Cam	Check dash-cams with main dealer	10/11/2025	14/11/2025		10	2	 
Yet Another Test	Another test description	15/11/2025	19/11/2025		0	3	 
Test 1	Sample 1	20/11/2025	24/11/2025		0	4	 
Test 2	Sample 2	25/11/2025	29/11/2025		0	5	 
Test 3	Sample 3	29/11/2025	03/12/2025		0	6	 

To-Do Documentation

Add a Task

Click the Plus icon at the end of the task header; this will open the add new task popup form.

Add a new task

Task Name:

Description:

Priority:

Start Date: 

Due Date: 

Completed Date: 

Dependencies:

Progress %:

Priority can be selected via the dropdown, and dates entered using the date picker if required.

Click on **Add** to add the task; if the name, description, start date or due date aren't entered then error messages are displayed.

- The start date entered cannot be after the due date.
- The due date entered cannot be prior to the current date.
- Progress % should be entered as an integer value between 0 and 100 (defaults to zero).
- Dependencies should be entered as a comma separated list of task ID's. e.g. if Task 3 cannot complete until Tasks 1 and 2 are complete, enter 1,2
Invalid entries will be ignored on the Gantt chart.

Clicking **Cancel** closes the form without any further action.

To-Do Documentation

Edit a Task

Click the edit icon on the relevant task row, which displays the same form as that for “Add a new task”.

Click on **Edit** to edit the task; if the name, description, start date or due date aren’t entered then error messages are displayed. Unlike the “Add a new task” form, the due date entered can be prior to the current date, to allow for editing old tasks.

Clicking **Cancel** closes the form without any further action.

Delete a Task

Click the Bin icon on the relevant task row, then click **Delete** to confirm deletion or click **Cancel** to close the form without any further action.

Header Bar Functions

Export to CSV -

Data for projects and tasks can be exported to CSV by clicking the link at the right of the page header, then selecting the appropriate export type:

CSV Export Options

Select what to export:

- ☒ All tasks from all projects
- ☐ All tasks from the current project
- ☐ Tasks from all projects by date range
- ☐ Tasks from the current project by date range

Enter date ranges for options 3 and 4

Enter from date: 

Enter to date: 

View This PDF -

Click the question mark in the header bar to open this PDF in a new browser tab.

To-Do Documentation

Toggle Gantt View –

Clicking this button toggles the Gantt view for the current project on or off. If there are no tasks the button won't do anything and the view will remain the same. Click on Day, Week or Month to change the scale; clicking on a task displays an information popup.

Progress is coloured green, overdue tasks are coloured red, and incomplete tasks are coloured blue.

Important: Dragging a task in this view will alter its start and end dates, along with those of any dependent tasks. This action cannot be undone except by manually editing each task. Dragging the progress indicator will change the progress for the task.
